### Required Narratives

How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

- \* ARP ESSER funds will be used to:
- Plan and implement summer learning and after school program activities
  - Address learning loss of our students
  - Other activities necessary to maintain the operation of and continuity of services.

UCS will ensure that no student or teacher will be denied participation based on gender, race, national origin, socioeconomic status, disability, or age.

In order to implement these strategies, the following staff will be hired:

Director of Operations and Culture, School Financial Specialist, Instructional Aides, Math Intervention Aide, Math Instructional Coach, After School program staff, and Summer Learning Camps stipends for current instructional staff.

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

- \* The interventions in place will ensure that additional support is needed to not only address the impact of lost instructional time, but to also ensure that our diverse student population has individualized needs met through the additional support of instructional aides and specialized instructional support in core academic areas. These positions allow more work to be done to support students with recovering lost learning while ensuring that they can also engage in grade-level content.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

- \* UCS will insure that all populations have the resources and access needed in order to be successful during this unprecedented time of learning. This can include providing additional support and intervention through instructional specialists for students who are struggling and instructional aides for general classroom teachers and students. UCS will provide internet access to students who are unable to provide reliable access on their own. Students receive additional services (special education, English Language Learners, and more) will continue to receive these services regardless of their learning environment. If any barriers arise for any stakeholders, UCS will address immediately.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?

\* The UCS CSFO will continue to prepare and present monthly financial statements at board meetings. In addition, the financial statements are posted on the UCS website along with check registers for public viewing.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

\* UCS is committed to building a strong parent and family-school partnership. UCS promotes and encourages parents and families and school personnel to be involved in all aspects of their child's education to include:

- Parent Academy: quarterly meeting/training held specifically for parents to learn about the technology being used at UCS, how to help their child academically, etc.
- Communication: a Friday communication is sent every Friday to every parent for upcoming events; System Calendar of events; fall festival; UCS website; teacher emails and phone calls, school-wide communication platform used for instant communication through apps, texts, phone calls, and emails.

In addition to the quarterly Parent Academy's held, additional meetings with parents will be held to understand proficiency levels of academic standards and curriculum, interpretation of state and local assessments, and methods for monitoring their child's education at home will be provided. Appropriate school personnel will inform parents of continuing education opportunities and will work with parents on techniques and activities to help their child achieve challenging state content standards.

UCS educates its teachers, support personnel, principal and other school leaders in the value and utility of contributions of parents, and in how to reach out, communicate, and work with parents as equal partners, implement and coordinate parent programs and build ties between parents and schools by:

- Emailing every Friday a newsletter
- Sending home graded assignments and monthly progress reports
- Scheduling parent-teacher conferences
- Making phone calls, sending home homework, and notes and weekly folders
- Encouraging parents to serve as volunteers/tutors
- Serving together on school committees
- Conduct Reading and Math nights for parents
- Parent participation in class parties, festivals, etc.

**ARP ESSER State Reserve Allocation to Address Loss of Instructional Time**

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students’ social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

**Required Narratives**

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

\* UCS has partnered with Tuscaloosa's One Place (TOPs) in providing a high quality After School program. Students receive two hours on Monday, Tuesday, Thursday and Friday and 3 hours on Wednesday of academic and social enrichment. Academic remediation, homework assistance, life skill lessons, mentoring, behavioral intervention, and extracurricular activities. UCS' After School program works to increase the school year attendance of the program participants. All students are eligible to participate.

UCS will host a Summer Learning Camp in include 20 days in instruction each summer.

UCS will be using Mclass/Amplify ELA, Eureka Math In Sync/Affirm/Equip, and IXL for manipulatives and customized assessments.

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

\* Various assessment platforms were used to identify students to participate in summer learning camps and to receive additional tutoring/academic support through our after school program. For our lower elementary students, DIBELS is the primary data source that UCS uses to identify key literacy needs of support in individual students. STAR Early Literacy, STAR Reading, and STAR math are all additional instruments where academic screening and progress monitoring occurs to support students in the core academic areas. This data is used in summer and after school settings and is used to drive work around learning loss to ensure that any academic remediation or instruction can be as targeted and effective as possible.

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

\* The Eureka Math/Great Minds digital platforms of In Sync, Affirm, and Equip provides direct instruction and customized assessments for all instructional lessons for our K-8 students. This allows for a wealth of opportunity for students to have this resource to review math concepts after school, at home, and while at school in remedial settings so that students are supported with acquiring key academic content. This supports lost learning for students who may have missed school and supports all students by providing this instructional resource 24/7 to all students to increase the likelihood of acquisition and retention. Our mCLASS/Amplify Reading platform works similarly by engaging students in targeted instruction, assessment, and independent learning aligned with diagnostic screening data. This ensures that time spent on the platform is addressing deficits in learning.
